Access to clean water is something we take for granted; in fact, we don't even give it a second thought. But what if you lived in part of the world where access to clean water is like winning "the LOTTERY"! Did you know that 26% of the world's population lacks access to clean water and 46% lack access to basic sanitation. **COME WALK WITH US!** Experience what 2 billion or more people globally do just to obtain water – walk a mile in their shoes (feet)!

The Rotary Club of Waynesboro is partnering with a PA Non-Profit Organization – Clean Water Kenya – to raise funds to support the purchase of water filters and rain barrels for the Maasai village people in eastern Kenya's Rift Valley. The course is a 3-Mile course in which you will walk 1.5 miles and then retrieve a 1-gallon water container which you will carry to the finish point. We use a 1-gallon water container to simulate what it is like for a child or adult to retrieve water from a distance from their village. Think about this: It could take 4-6 hours for someone to retrieve a jerry can of water (about 5 gallons) and the journey is normally 5-8 miles or more.
